

# Lecture Series: Green Energy Lecture, Vladimir Grebenyuk

**When:** Wed 2019-05-15 7:00p - 9:00p

**Where:** Sponsored by Kiwanis Club of Kamloops

## Green Energy in the 21<sup>st</sup> Century; Lecture

Sponsored by the Kiwanis Club of Kamloops

Doors open at 6:30; lecture starts at 7:00pm.

For older children and adults.

Entry by donation. Refreshments provided.

At BIG Little Science Centre, 655 Holt Street.

Contact 250-554-2572 or [susan@blscs.org](mailto:susan@blscs.org) for more information.

## Green Energy in the 21<sup>st</sup> Century

Hurricane in Puerto-Rico, cyclone in Africa, ice storm in Atlantic Canada - events like this are becoming more frequent and more severe. The blame is on climate change. Combatting it will require tremendous efforts, and it will take long time. In the meantime we need to be prepared for this and other kinds of disastrous events in order to prevent huge economic losses and save lives.

Autonomous, distributed, clean energy generation is one of the most effective ways in achieving this goal.

**Let's talk about some of the alternatives out there.**

An interactive talk, slide show, questions are welcome.

### Presenter

Vladimir Grebenyuk holds a Masters Degree in Aeronautical Engineering from Kharkov Aviation University (Ukraine). Vladimir is also a Special Graduate of the Systems Architecture program from the Massachusetts Institute of Technology. He is a senior member of the Institute of Electrical and Electronics Engineers and serves on the board of advisors for t-Sat program for the University of Manitoba
